

CompTIA Education to Careers (E2C) Membership

IT careers start with the right education. CompTIA E2C can help your institution deliver the curriculum that prepares students for success. It is a membership program for institutions that offer IT education and training. The goal of CompTIA E2C is to help schools train, certify and upgrade the skills of their IT students.

Institutions eligible for membership:

- Degree-granting academic institutions
- Not-for-profit organizations
- Government education organizations

CompTIA E2C supports IT education. Members of the program have instant access to a community of IT instructors; to network, collaborate and share ideas for the classroom.

About CompTIA

CompTIA is the leading association representing the IT industry. Its goal is to provide a unified voice, global advocacy and leadership, and to advance industry growth through standards, professional competence, education and business solutions. CompTIA also serves the IT industry as the world's largest developer of vendor-neutral IT certification exams. CompTIA certifications validate technical skills in the areas of PC repair and support, networking, security and server technology.

MEMBERSHIP BENEFITS INCLUDE:

- Discounted pricing on student exam vouchers
- Complimentary instructor voucher(s) for one CompTIA certification per membership year
- Access to the Instructors' Online Forum for sharing best practices
- Special pricing for annual CompTIA E2C Breakaway Conference
- IT Merit Award programs for students
- Access to industry research and best practices
- Marketing materials:
 - Posters for classrooms
 - CompTIA certification flyers
 - Use of CompTIA's logo

CompTIA Certifications: A Skills Benchmark for IT Professionals

CompTIA certifications are recommended or required as a prerequisite for many vendor-specific certifications, such as Microsoft MCSE and Cisco CCNA.

CompTIA A+ - for entry-level computer support technicians. Validates the foundation-level skills needed to install, diagnose, repair, configure and troubleshoot computer hardware and operating systems.

CompTIA Network+ - for experienced network technicians. Validates knowledge in the areas of network installation, configuration, and troubleshooting of hardware, protocols and service.

CompTIA Security+ - for experienced, technical security professionals. Measures the technical knowledge of systems security, network infrastructure, access control, assessments and audits, cryptography and organizational security.

CompTIA Server+ - for experienced server support technicians. Tests the knowledge and skills required to perform general server maintenance, installation, upgrades, configuration, troubleshooting and disaster recovery.

CompTIA Linux+ - for technicians experienced with open-source platforms. Demonstrates knowledge of user administration, file permissions, software configurations, and management of Linux-based clients, server systems and security.

CompTIA PDI+ - for entry-level document imaging support technicians. Validates basic knowledge of electromechanical components and tools, print engine and scan processes and components, color theory and connectivity/networking.

CompTIA Project+ - for any IT professional looking to gain project management skills. Validates knowledge of project management methods and practices, in areas such as planning, execution, coordination and project maintenance.
